

God's The Greatest Artist

by Meredith Waggoner & Casey Taylor

VERSE

Well they call Him the Potter
His hands have made me whole
Created in His image
To be like Him is my goal

Well they call Him the Painter
His canvas is the sky
With every morning sunrise
I can't help but lift Him high

CHORUS

Cause God's the greatest artist
I have ever known
From the stars up in the heavens
To mountains down below

He spoke into space and everything changed
Into everything we know
Yes, God's the greatest artist
That I have every known

VERSE

Well they call Him the Author
His story, history
And what He's writing for us next
I just can't wait to see

BRIDGE (2x)

You spoke when there was nothing
And turned it into something
Now I believe you're turning
What's been into something in me

Taking all that is broken
Making me feel new again
Now I believe you're turning
What's been into something in me
